

Prayer for Peace

Dear Jesus,

Oh, how I long for your peace today.

The world is full of chaos and confusion, more fighting is on the streets and online, more every day.

It is hard to watch and listen to it all, to be in the midst of the battles here on earth.

I am asking that you show me your peace today.

I need the peace that passes all understanding.

I need your peace to make it through another day.

I need your peace to sleep tonight Lord.

Please help me, I'm crying out to you now for your sweet peace.

You say in your word to give thanksgiving, so I am thanking you now for your peace that you are giving me even if I don't feel it.

Lord, build up my strength, courage, and faith in you today to believe for more peace.

Remind me gently today to look heavenward and not be distracted by the chaos.

May your words of peace be on my lips to share with others around me.

I embrace your peace today!

I am expectant for your peace to flood over me.

Amen

"Do not be anxious about anything, but in every situation, by prayer and petition, with thanksgiving, present your requests to God." - Philippians 4:6 (NIV)
